

Figure 8.1. Spectra of O-type stars – spectral types and luminosity classes. For explanation see text.

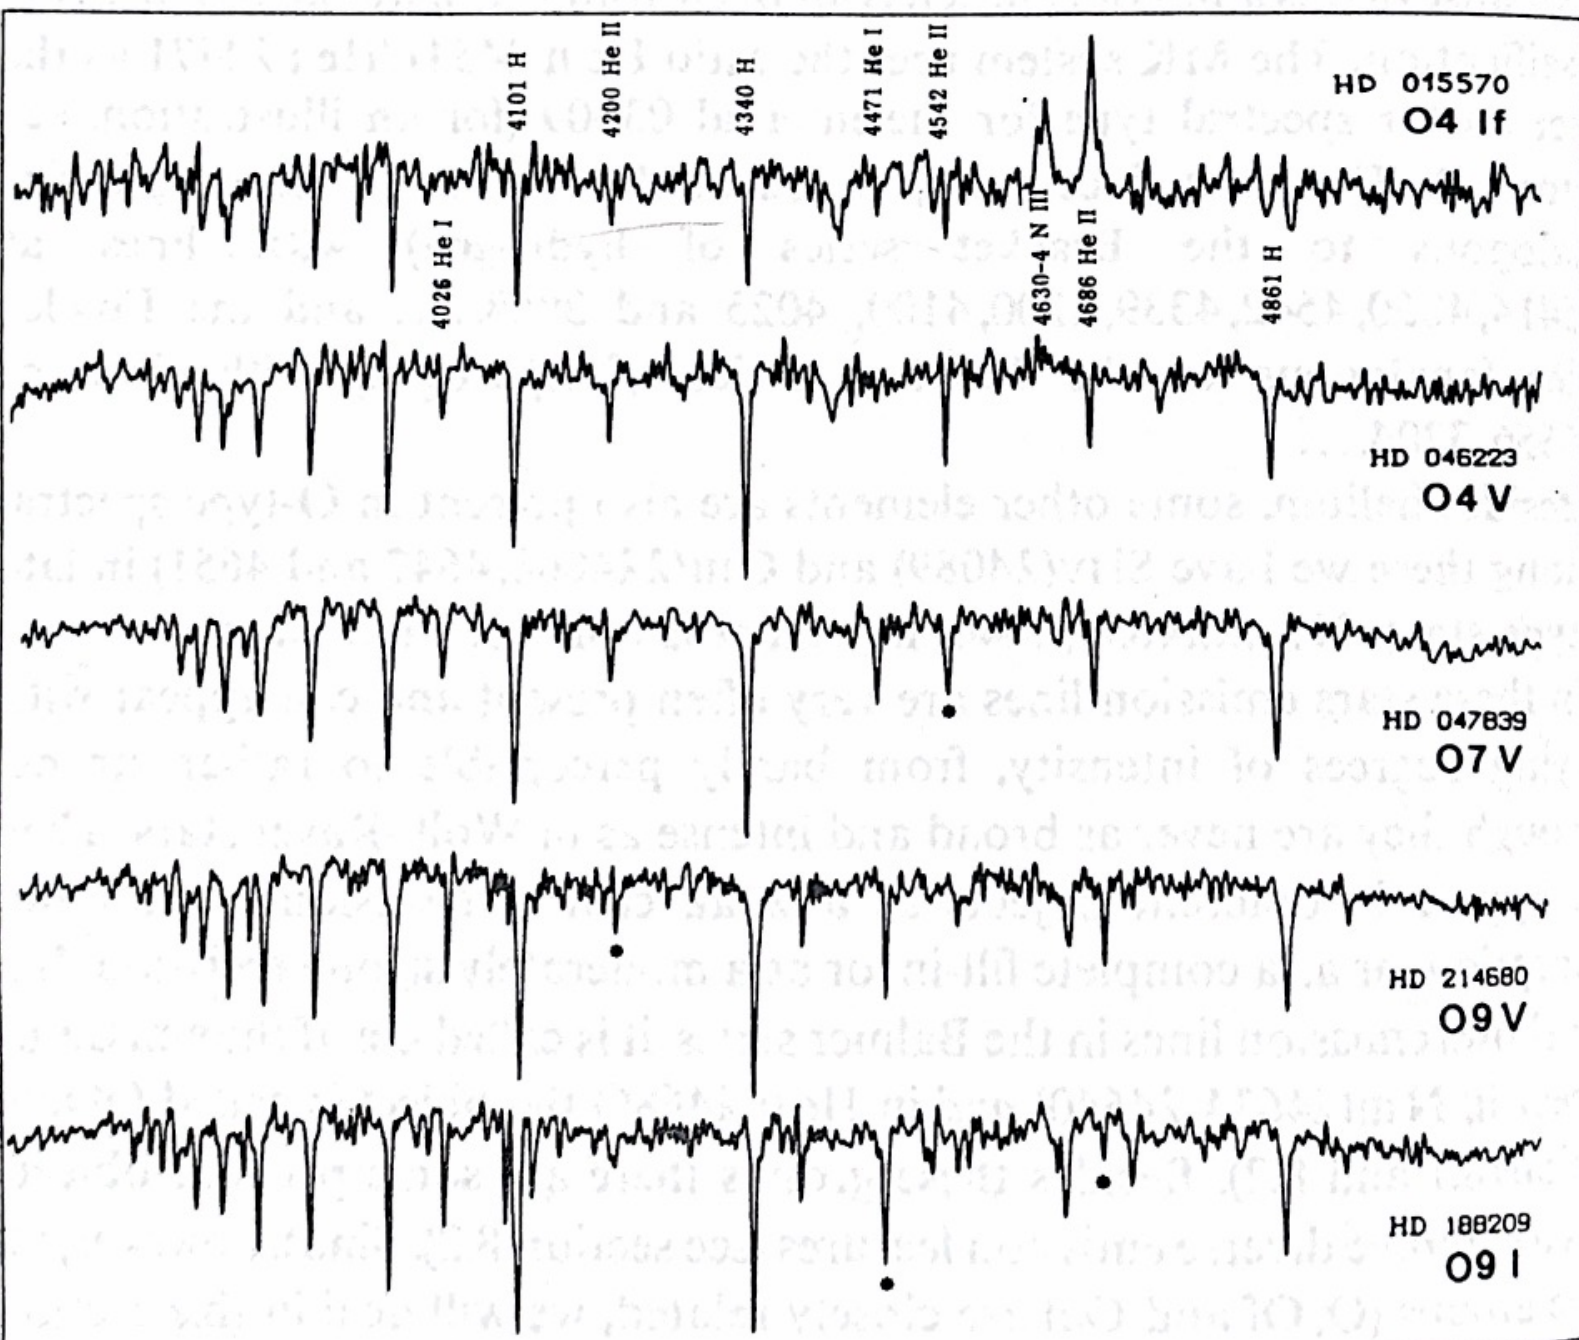

Figure 9.1. Stars of spectral type B. Observe the increasing strength of the Balmer lines toward late B-type and the decreasing strength of the He I after a maximum at B2.

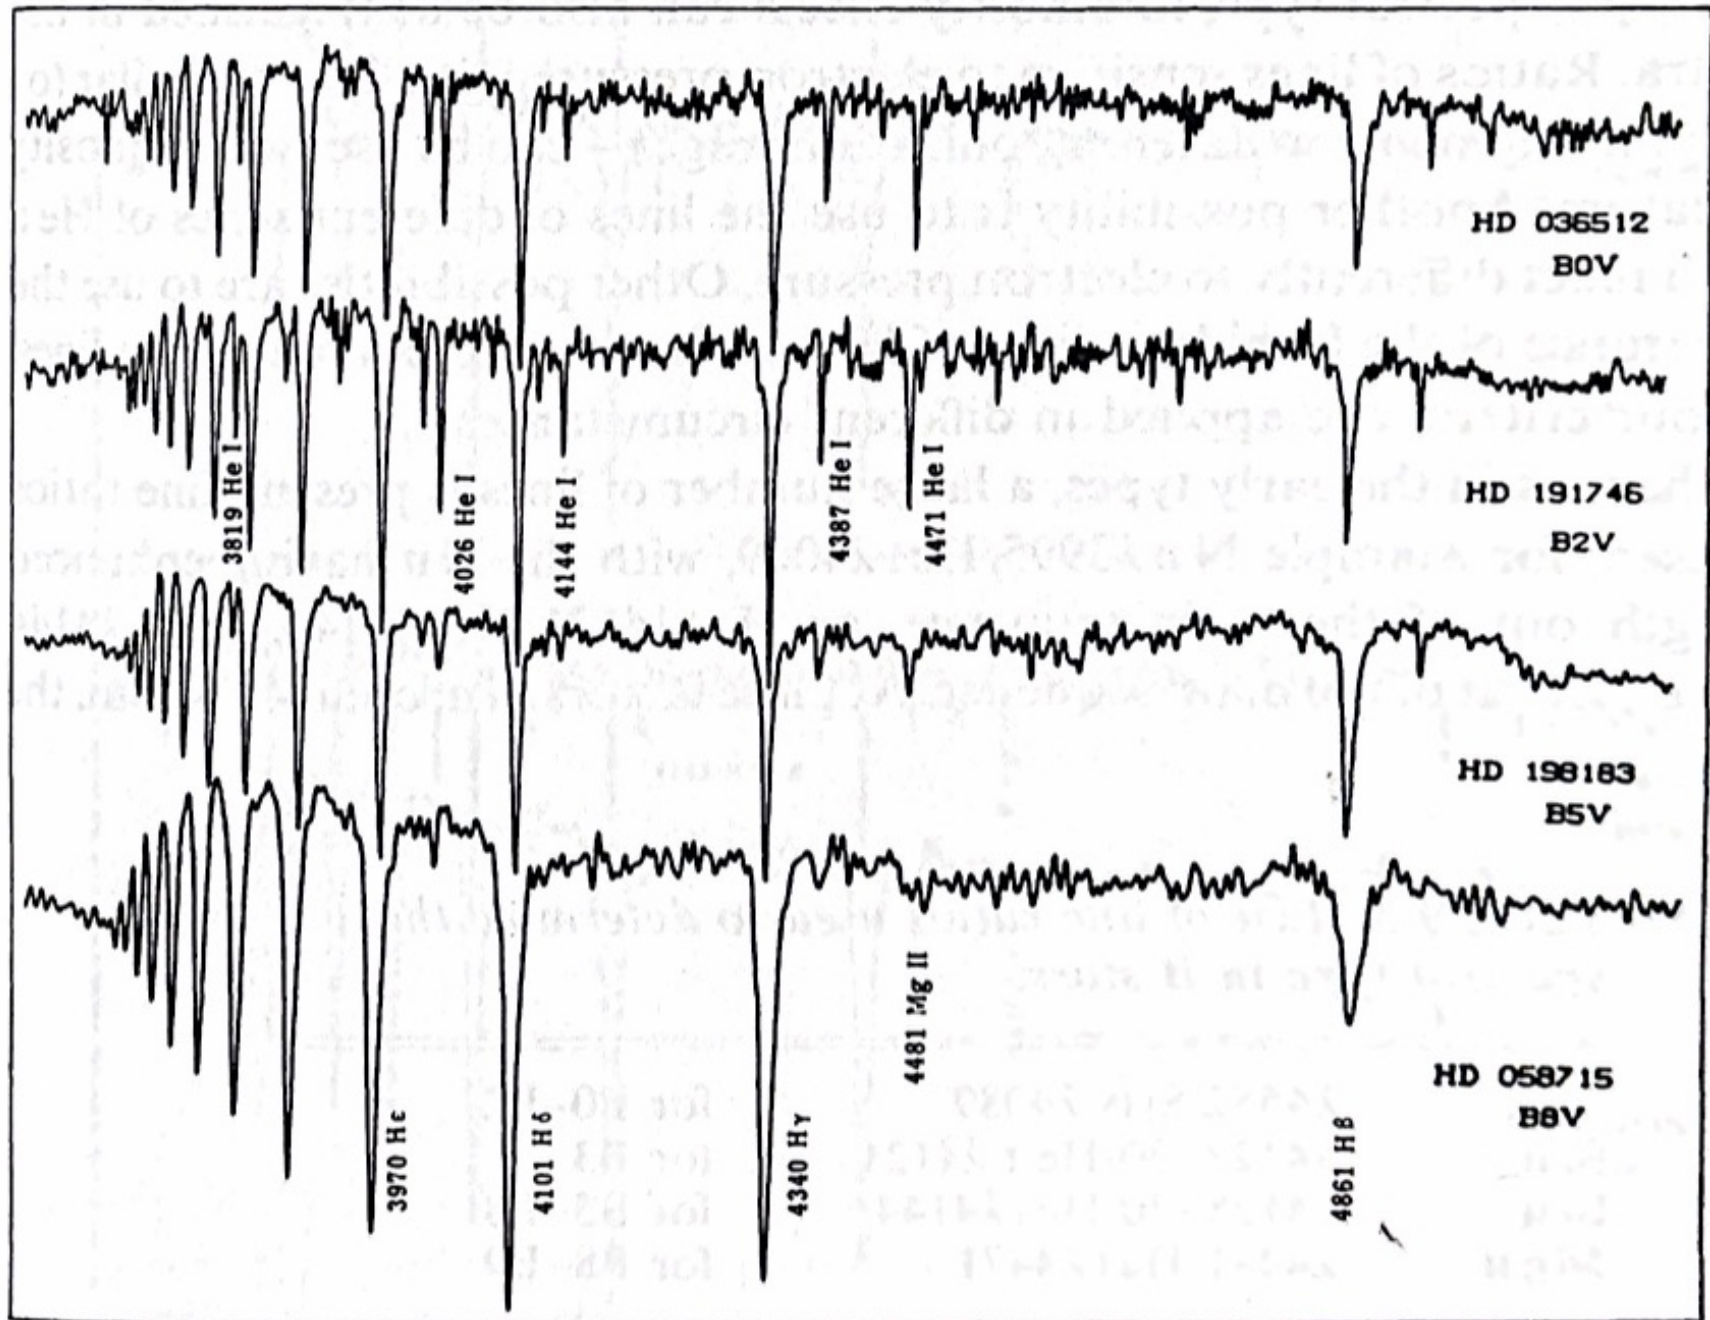

Figure 10.1. Spectra of A-type stars. For explanation see text.

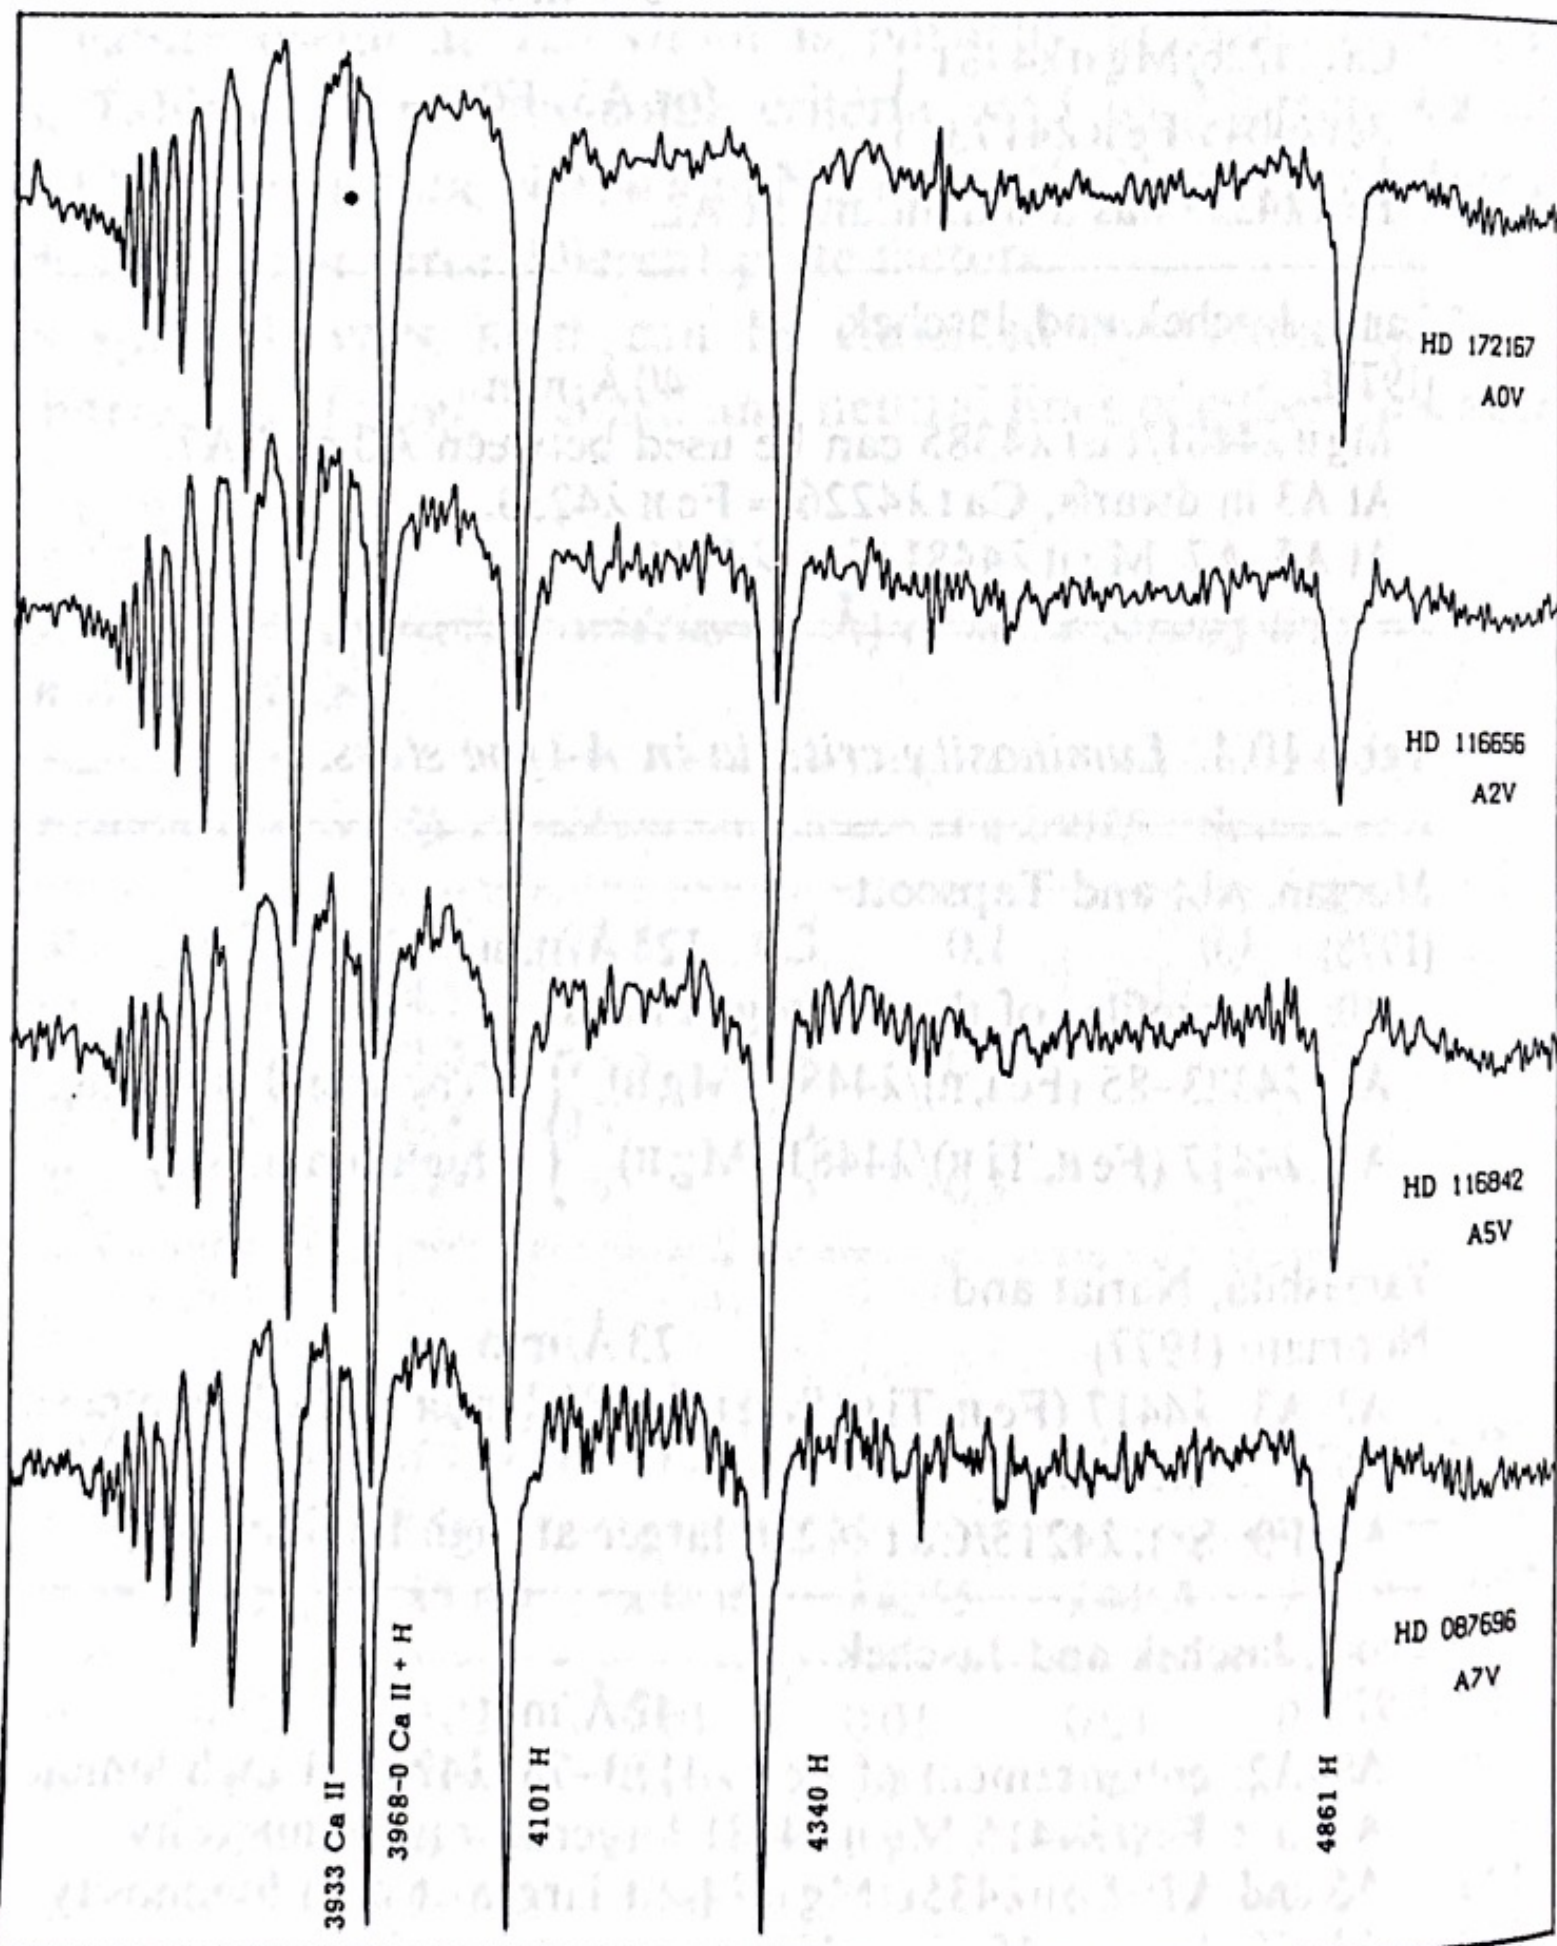

Figure 11.1. Spectra of F-type stars: temperature effects. For explanation see text.

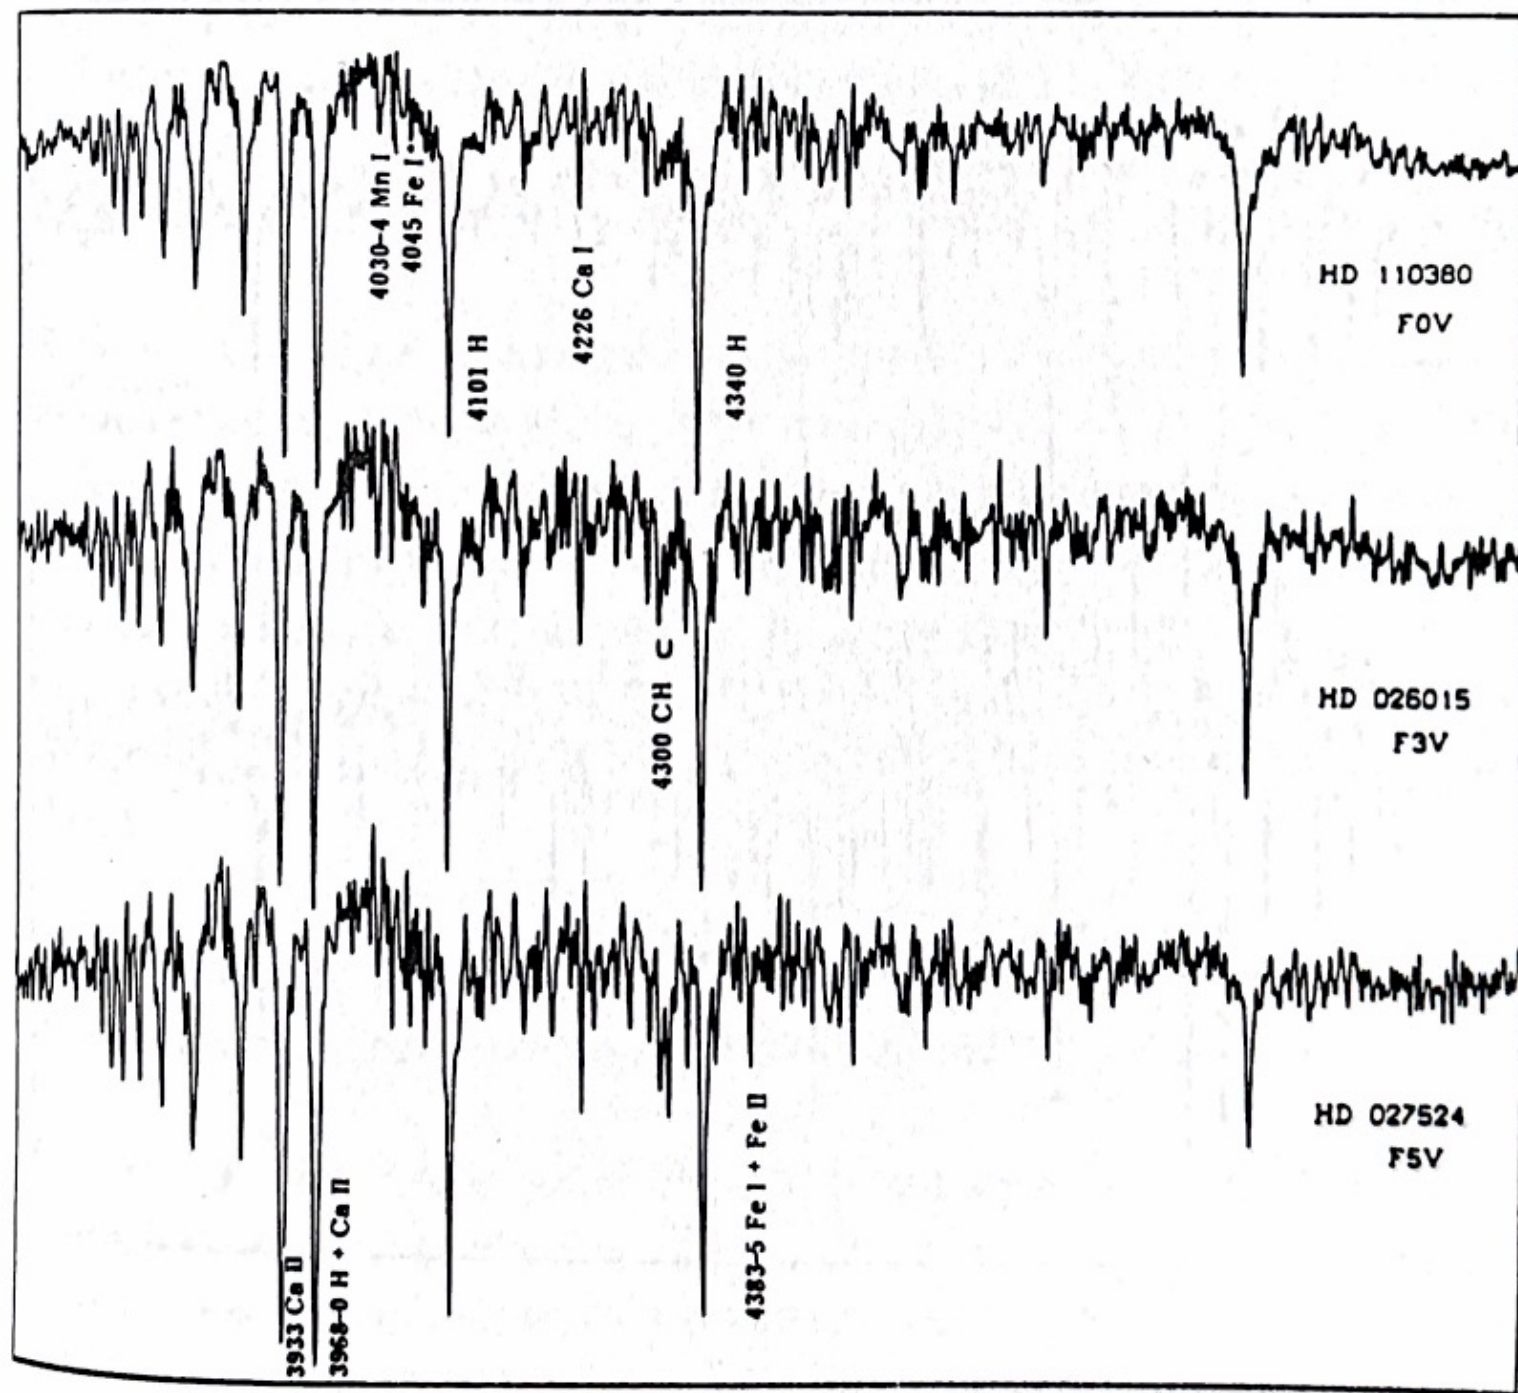

Figure 12.1. Spectra of G-type dwarfs, temperature sequence. For explanation see text.

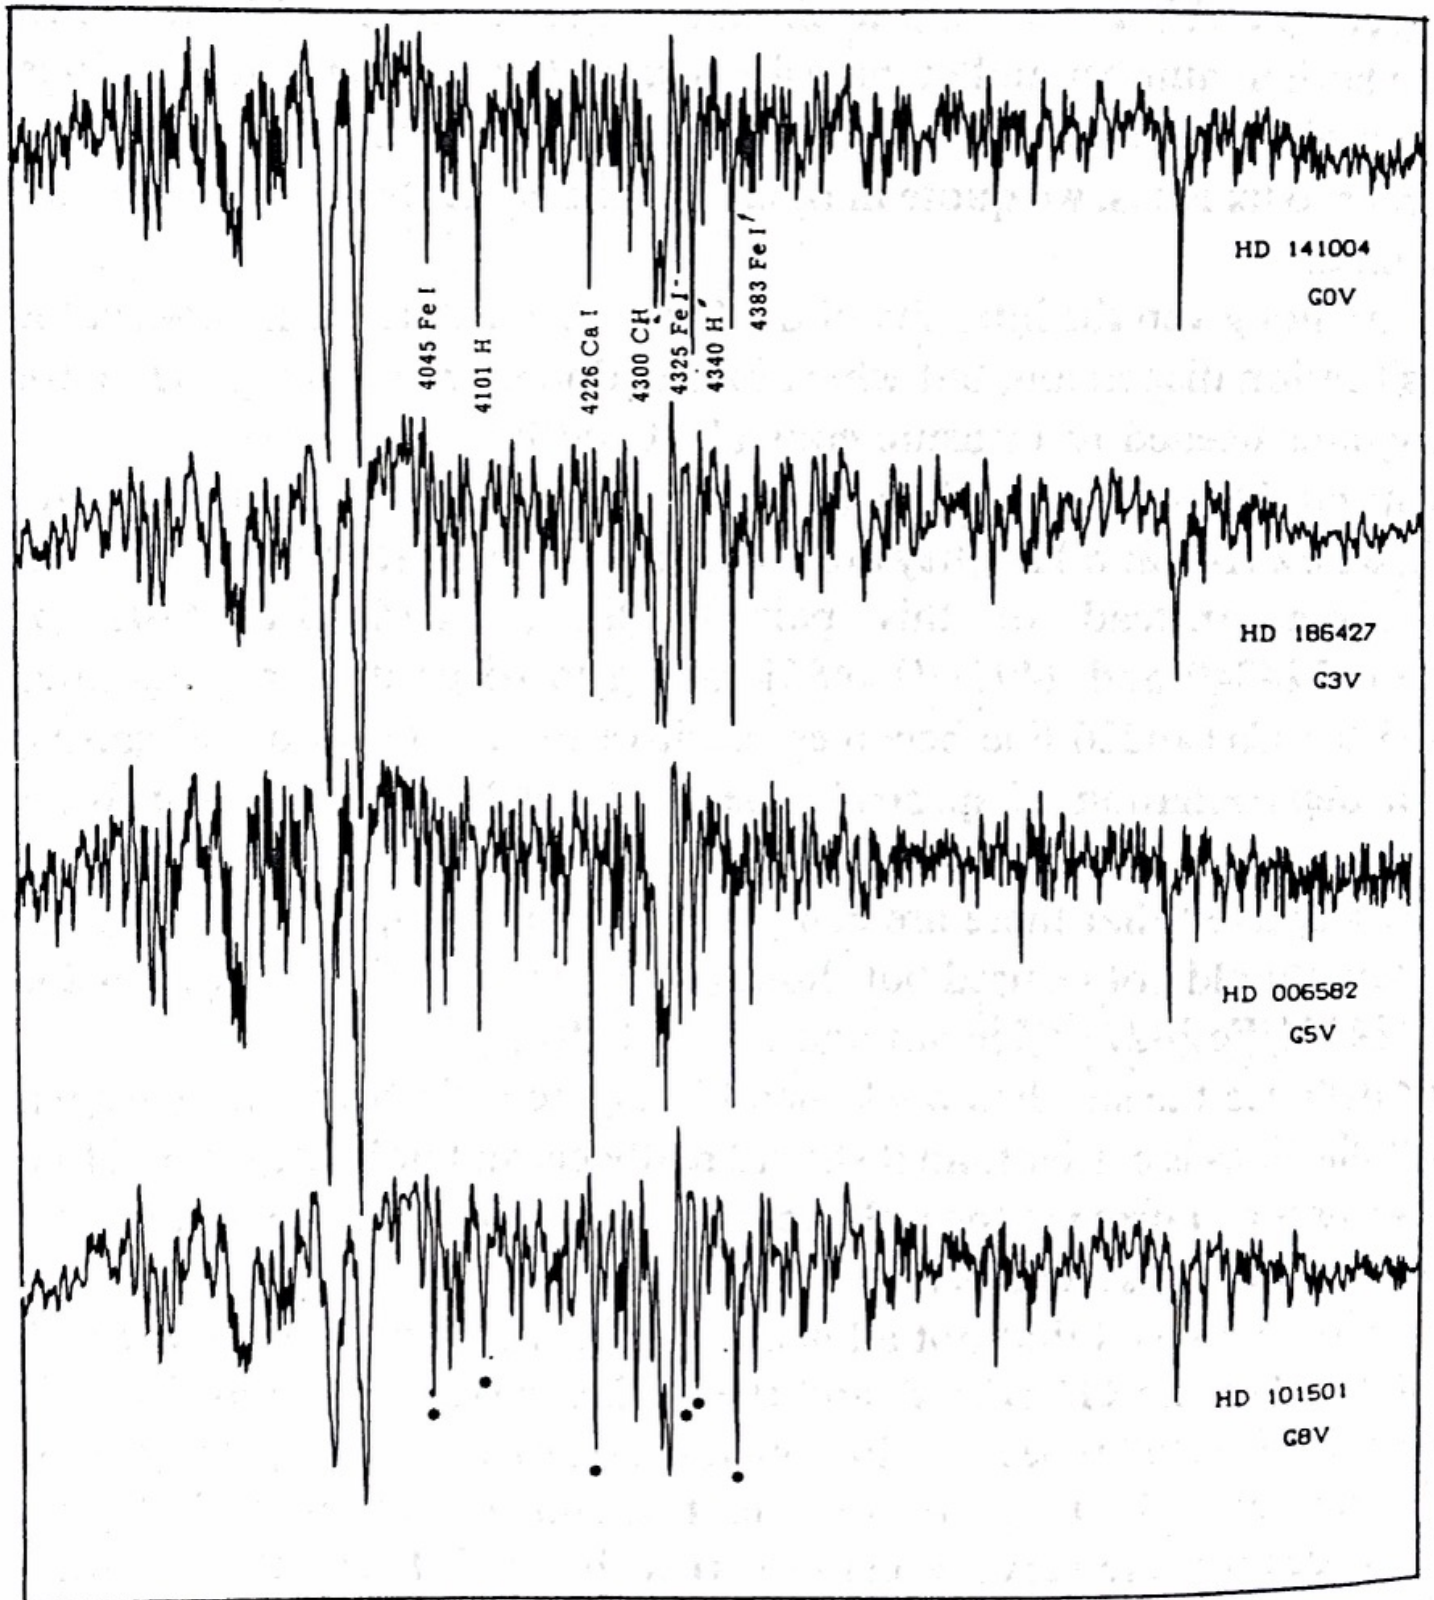

Figure 13.1. Spectra of K-type giants; temperature sequence. For explanation see text.

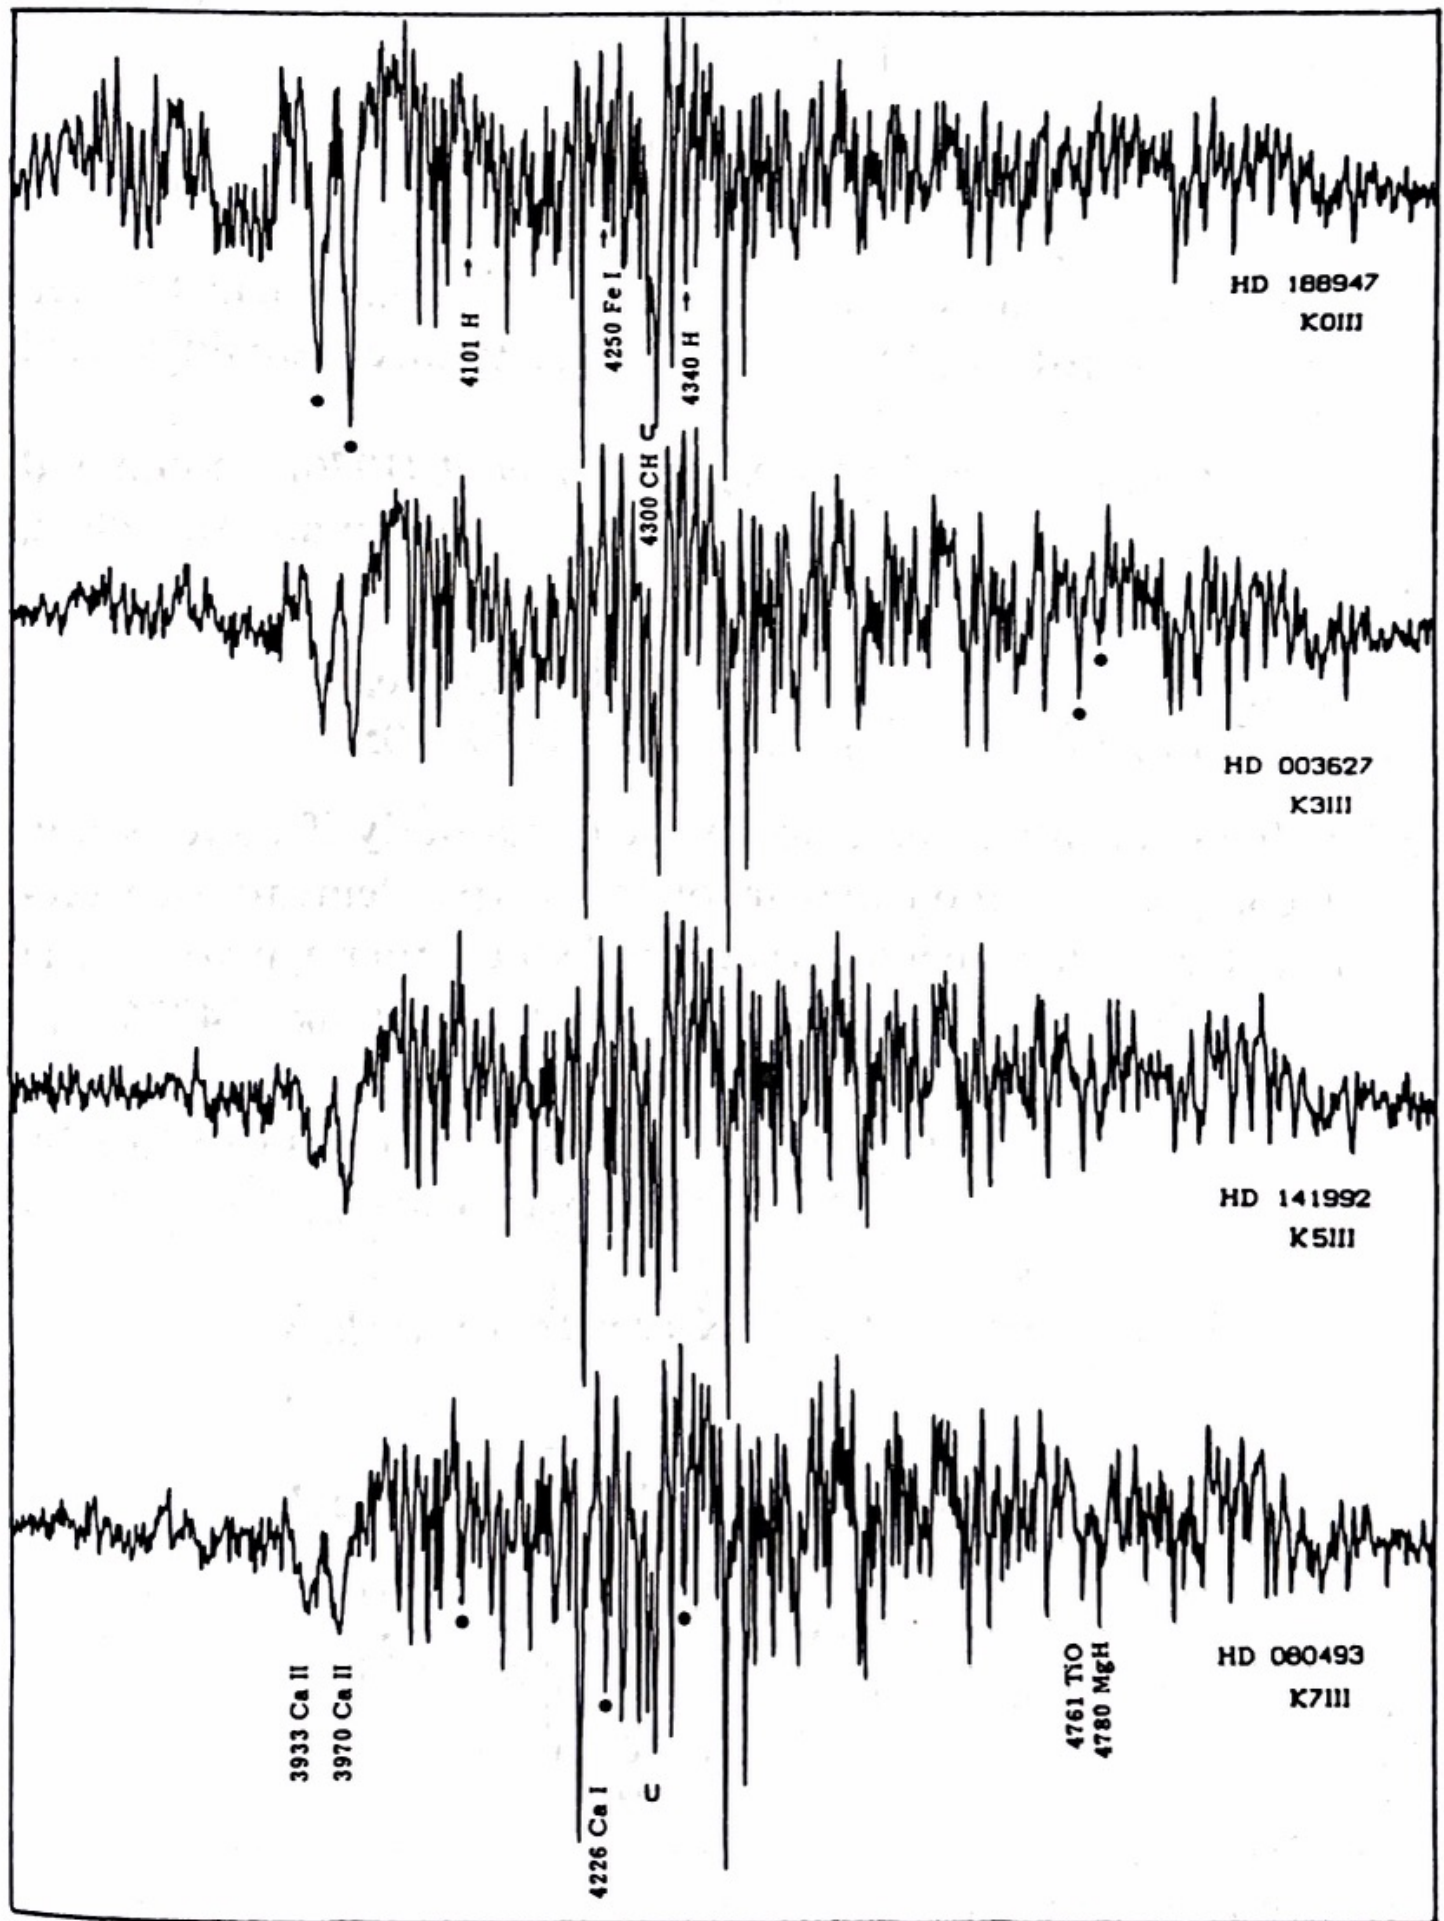

Figure 14.1. Spectra of M-type giants, temperature sequence. For explanation see text.
